

ROBOGRINDER AT VIRGINIA TECH

ON THE GRIND SINCE 2016

SPONSORSHIP PACKET
2026 - 2027

Who We Are

Founded in 2016, RoboGrinder is one of Virginia Tech's **largest student-led robotics teams**, bringing together students from mechanical, electrical, computer, and industrial engineering, computer science, and other disciplines to design and build custom robots for the ARC Robotics Championship [formerly RoboMaster North America].

RoboGrinder at Virginia Tech is a 501(c)(3) tax-exempt organization and thus all monetary and some in-kind donations are tax deductible. Values above are solely for monetary donations, in-kind donations will be assigned a tier by the team.

Why RoboGrinder?

- **RECRUITMENT & ENGAGEMENT:** Connect with engineering talent through recruiting, workshops, and lab visits.
- **BRAND & LIVESTREAM EXPOSURE:** Gain visibility through esports-style competitions, robot branding, and social media.
- **PRODUCT SHOWCASE & COLLABORATION:** Showcase products in competition-tested robots and engage students through technical feedback.
